

December Newsletter

What to Expect for the month of December!

Create a Business program: Club members will be getting into groups with counselors and will come up with a business idea of what they would like to invent/create to sell at the teen club. Additionally, they will decide on how much they will their product will be worth selling for. During this process over the next few weeks the teenagers will be creating posters and advertising for their product as well. At the end of the program we will be having a market day where the club members will be giving pretend money to go buy other products from the other team businesses.

Great Debate: Last month club members attended the first Great Debate and it became a big hit. We discuss topics that are relevant to the teenagers and assigned teams to be supportive and not supportive on topics that were discussed. The club members get to use their phone for research to help support their arguments. At the end of the debate the audience does a vote on which team presented the best argument.

Travel through Customs: Last month we learned about the country of Greece. In the program of travel through customs we discuss the variety of food, beliefs, celebrations and the country history. At the end of the presentation the club members got to enjoy a snack of pita bread and hummus.

Awareness Project: Is a new program starting this month. The goal is to engage the club members mind into looking at different topics with a new perspective. This month we will be focusing on the issue of cyberbullying and asking the club members what they believe is wrong with the issue, why they think this issue exist, and possibly solutions to help resolve the issue. With participation of the program the club members will get to enjoy a special snack for participating.
