The month of September was a fun filled month learning about your children's personalities and what they're interested in and what they would like to see happening at the Teen Club! The school has been gracious to the teen club and allowing us an hour in the library from 3:00-4:00 on Monday & Wednesday's. This month we created a program called World of Teens. The teenagers can earn points over the course of the month by participating in activities, programs, helping during homework time and acts of kindness. The Five teams we have; are **Team Gucci**, **Team Flying Tortoises**, **Team Watermelon**, **Team the Champions**, and **Team the Flames**. The five teams within the club are assigned to a counselor and each month to help motivate them and guide them in our open field games, team building games and crafts. At the end of the month the Team with the highest amount of points get to choose as a team between the four prizes we offer them. Then we start all over for the next month.
